

TGJ
Photoshop Assignment #2

This assignment will test your colouring skills. Open the file superman.psd or looney.psd. The image must be coloured using any of the colouring tools. The colours may be then adjusted using other tools, such as the eraser, smudge or the blur tool.

You should use a layer for each section or part of the sketch. Make sure the black lines are somewhat visible. The B&W original layer should be the top layer and the blending mode should be set to multiply.

Include a pattern border or solid border, a title and your name. Be sure to apply layer effects to the text.

Background fill or gradient, border	3 marks
Titles plus layer effects	4 marks
Layers (proper stacking order, Blending mode, named)	5 marks
Quality	8 marks
<i>Total</i>	<i>20 marks</i>
