

Photoshop Assignment #3

Magazine Cover

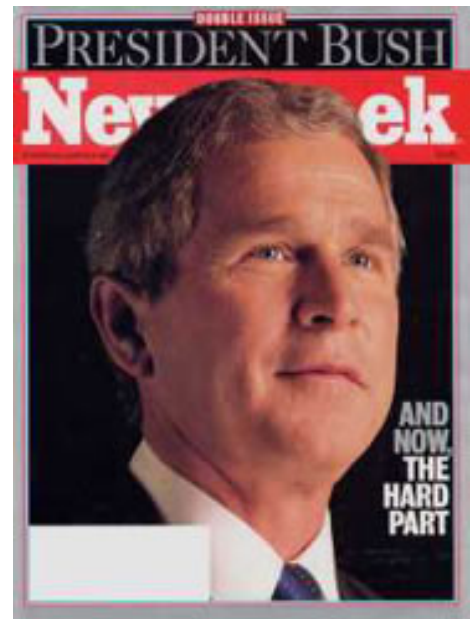

The artwork that you will create must be on an 8.5 by 11-inch transparent canvas, in RGB mode with a resolution of 300 ppi.

Your task is to replicate a cover of an appropriate magazine. However your picture must be on the cover. If other photos are needed, friends may be used with their permission.

Attempt to replicate the font and the background of the original cover. Fonts maybe downloaded and installed. A photocopy of the original magazine must be handed in.

Pay attention to detail when creating the cover. Such items as price, UPC code, what's inside, website, etc., must be included. All objects must be created to scale. (Use rulers and guides)

Be sure to use a new layer for each image, gradient, fill or object that you are creating. Layer sets must be used for better organization.

A digital camera will be available to take your picture. All images placed on the cover should have a resolution of 300 ppi.
