

Portfolio Internet Site Project

Stage 1 (10%)

You will create a Portfolio website that will contain (display) the following:

- Mission Statement about your graphic design skills and any future goals
- Contact Information (e-mail only)
- Works that you have created the last 2 or 3 years in class. Photoshop, Illustrator, flash, etc.
- Other art works from non-computer classes
- Useful Graphic Design Links

The website will have the following set-up:

Design Process Requirements

1. Give me some specific goals of the site, who may/will be viewing the site, what resolution the site will be designed for (800 x 600 or 1024 x 768, 1280 x1024).
2. Site Design:
 - a. A design drawn in Illustrator (b&w) outlining what the Enter Page will look like. Give pixel measurements, colour descriptions, images (rectangle with an x), backgrounds, links, tables, etc.
 - b. A design drawn in Illustrator (b&w) outlining what the html/dreamweaver site structure will look like. Be sure to show details, such as frames, tables, links, button types (mouseovers, flash buttons, size of frames (% or pixels), size of tables (% or pixels) and filenames.

Once parts 1 and 2 are completed, submit for approval, and then the actual page design can begin.

Due: Friday April 1st at the start of class

Level Rubric will be used for the evaluation
