

## Portfolio Internet Site Project

Company and Logo- *Stage 1 b*

Assuming you are starting your own graphic design business, you must do the following:

- Create a company name
- Design and create a logo
  - The logo must be created in Illustrator
  - There are no colour limitations, but you may want to stick to web safe colours
  - You may use a downloaded font for your text
  - It may include an image (I recommend against this)
  - It does not need to be complicated

Once completed covert all text to outlines and save the file as finallogo.ai

Due Date: April 5<sup>th</sup>
