

Name: _____

DUE May 13th

Stage 4 – Uploading to the Internet (5%)

Note: Before this stage can be completed, you must clean up the website folder.

The start page must be called index.html or index.htm.

You must get web space from your home Internet Service Provider or a free web host. Find out if a FTP program can be used. To use a FTP program you will need to know the following items:

Make sure all the filenames and extensions are in lowercase and without spaces.

Files to be uploaded: All files needed. No psd's or Ai's

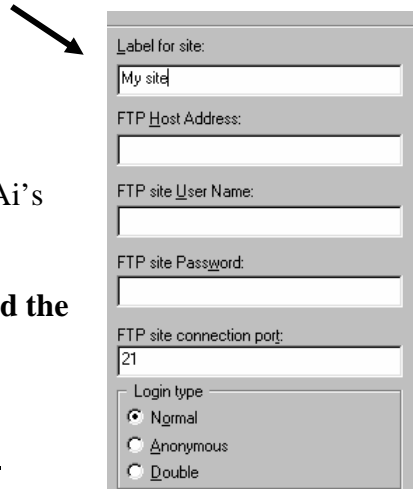

Each time you make a change, you must re-upload the modified files.

Address: _____

www.

Or

http://

The image shows a screenshot of an FTP client configuration window. An arrow points from the text 'following items:' to the 'Label for site:' field. The fields are as follows:

- Label for site: My site
- FTP Host Address: [Empty]
- FTP site User Name: [Empty]
- FTP site Password: [Empty]
- FTP site connection port: 21
- Login type: Normal, Anonymous, Double
